

Swift 911 Emergency Contact Information

In conjunction with its contract to serve and protect Ben Avon Borough residents, the Ohio Township Police (OTP) Department provides - at no additional cost – an emergency notification service operating as Swift 911.

In case of an emergency, you would be notified by OTP or other emergency management authority with direction about protecting yourself and your family. All the calls you receive will have the Caller ID of Ohio Township or Ohio Township Police Department.

Submitting your information is voluntary. Registering warrants your strong consideration given the convenience and variety of channels available and the prospect that on the rare occasions when Swift 911 is activated, the information could be vital.

To register for the first time or to update previously submitted contact data, choose any or all modes. For multiple entries, please duplicate this form or indicate clearly below. Mail the form to Ben Avon Borough, 7101 Church Avenue, Ben Avon, PA 15202; scan it and email to benavon@benavon.com or fax it to 412-766-7311.

Your information will not be used for any purpose other than emergency notification.
